* Data for this paper were gathered in Umbukul village between March, 1986 and June, 1988. Writing this paper would not have been possible without help and so I wish to express appreciation to the people of Umbukul and area who have helped me immensely by patiently teaching me their language, and to the S.I.L. Technical Studies Department which has given much needed direction and assistance, especially the help I received from Ginny Schlie during the 1988 Grammar Workshop.

Papers in the series **Data Papers on Papua New Guinea Languages** (formerly **Workpapers in Papua New Guinea Languages**) express the author's knowledge at the time of writing. They do not necessarily provide a complete treatment of their topic. However, it is felt that these papers should be made available at this time.
